HOLIDAY FAMILY DINNER IN A BOX

At Stafford Junction the Holidays are a special time of the year! Prior to COVID-19 we offered a holiday meal where we could come together to share a meal and show our families just how much we love, support, and appreciate them. This year, we offered Holiday Family Dinners in a Box so that families would not have to go without a special holiday meal. The boxes included a turkey or ham and all the trimmings. Our families were able to enjoy a holiday meal in the safety of their own homes.

STORIES OF IMPACT

The Saleh family moved into one of our neighborhoods in the middle of last year. We connected with them through their elementary school where we signed both of their children up for our Brain Builders program. In early October they voiced their fears about not being able to afford a special Holiday dinner for both Thanksgiving and Christmas because of the pandemic. We made sure that they received Holiday Family Dinner Boxes, so that they could enjoy their holidays and use their already tight resources for other things such as rent and other critical expenses. Unfortunately, they were not the only family in this situation this year. We were able to provide aid to every family that reached out to us for assistance with Holiday Meals. Our mission is to help others, one way we help is by making sure all families can share a special holiday meal together without having to worry about whether they can afford it.
