

Junction Spotlight

Mission: Transforming Lives Through Faith and Action
March 10, 2021 - Vol 8

ADOPT A FAMILY DURING CHRISTMAS

Stafford Junction has always been there for our low income families during the holidays. This year due to Covid-19, we knew the need for assistance would be greater than ever before. To answer this great need we created an Adopt a Family program where donors could choose a family residing in one of our low income neighborhoods and purchase gifts for an entire household. We also collected donations and did some shopping of our own to go along with the gifts brought in by our amazing donors. We spent most of the week before Christmas spreading some Holiday cheer in the neighborhoods we serve, putting a smile on many kids faces.

STORIES OF IMPACT

The Merino Family learned about Stafford Junction and began participating in our programs this year. When the pandemic turned the world upside down, they were left with little money to pay bills and feed their hungry bellies. Our amazing donors helped us ensure that they and many others like them had an amazing Christmas filled with presents for the entire family. Everyone is struggling more this year, we made sure that the families we serve were taken care of because everyone deserves to celebrate regardless of their financial situation. We also brought this family a Christmas Dinner In A Box to make certain that their celebration would be complete. We love to see the spirit of giving come to life, especially during the holidays!
