

Junction Spotlight

Mission: Transforming Lives Through Faith and Action
May 5, 2021 - Vol 14

COMMUNITY TIES & SUPPORT

Stafford Junction relies on our community to provide programs to low income children and their families in Stafford County. Your monetary donations are a large part of what keeps us going. We are currently running our 2021 Building A Better Tomorrow Campaign, if you would like to support us, please visit <http://staffordjunction.org/bbtc2021/>. Other ways we receive support from our community is by benefiting from service projects such as the outdoor ground improvement project completed by the Eagle Scouts.

Working Hard

Our Amazing Volunteers

Looking Great

When Eagle Scout candidate Aaron was searching for a service project, he decided to help Stafford Junction improve safety, longevity of grounds, and lower maintenance needs. Aaron and many other volunteers spent 6 hours transforming the grounds. Mulch was used to realign and build up the trail, rocks were used to create an erosion control safeguard in the back of Stafford Junction, and a bridge was placed over the control area. Stones and edging were placed around the foundation which will save time on weeding and upkeep while also creating a beautiful and welcoming environment in the front of the building. Flower boxes were all stained and weeded completing the overall look. The volunteers went further than the original project plans by placing extra stones around bases of trees near the basketball court and staining the bridge in the back of the property. Aaron's goal was to "make a better and more interesting environment for kids to learn and grow." The volunteer effort was a success and now Stafford Junction is looking forward to receiving our Summer Junction participants in a beautiful and welcoming environment!
