2021 BBTC GOAL

WE NEED YOUR SUPPORT

Stafford Junction relies on our community to provide programs to low income children and their families in Stafford County. Your monetary donations are a large part of what keeps us going. We are so close to meeting our 2021 Building A Better Tomorrow Campaign Goal! Your gift allows us to continue providing programs and services to those who need it most. If you would like to support us, please visit <http://staffordjunction.org/bbtc2021/>.

Looking For Clues

STEAM CAMP AT STAFFORD JUNCTION FEATURING NCIS

STEAM (Science Technology Engineering Art Math) camp kicked off this week with a variety of activities. Engineering skills were put to the test using toothpicks and marshmallows. Design skills were put to good use as participants used original creations to protect their eggs in the famous egg drop challenge. Two days of experiments involving measurements, counting, engineering strategies, and some artistic expression led to a 2-day Naval Criminal Investigative Service (NCIS) adventure for Stafford Junction STEAM camp participants. NCIS agents from the Quantico, Virginia office provided information on how they employ STEAM concepts in carrying out the daily activities required to carry out their jobs in their quest to prevent terrorism, keep secrets, and reduce crime. NCIS finished the camp with interactive involvement as our participants took part in checking out the agent's equipment and learned defensive tactics to control unruly crowds. They also learned how to document, recover, and process evidence. Stations were set up, each covering a different aspect of criminal investigative process including how to properly take fingerprints.
