

JUNCTION SPOTLIGHT

August 15, 2022
Volume 38

BUILDING A BETTER TOMORROW

Stafford Junction relies on our community to provide programs to underserved children and their families in Stafford County.

Your monetary donations are a large part of what keeps us going in that your gift allows us to continue providing programs and services to those who need it most.

Stafford Junction
Where Lives Connect

Most Improved

Malia has been an active Stafford Junction participant since 2020, when she joined the virtual Brain Builders program. In 2021, Malia participated in Summer Junction to combat summer learning loss attending each session consisting of reading, math, arts/crafts and outdoor exercise. She again participated in virtual Brain Builders during the 2021-2022 school year.

When Malia's mom registered Malia for 2022 summer camp, she was excited to announce that Malia had been awarded "Most Improved" by her teacher and was thankful that Brain Builders had helped her daughter.

During the 2022 Summer Junction session, Malia enjoyed learning about worms, bugs, ants, frogs, birds and state parks through the addition of outdoor education lessons that supplemented the STEM (science, technology, engineering, and mathematics) classes where students created and tested projects. This was the first year Malia was joined by her brother, Morgan. We look forward to seeing them both grow through Stafford Junction programs and we are especially looking forward to hearing Malia sing with the Stafford Junction Choir at the Dedication and Recognition Ceremony for the Outdoor Educational Classroom this coming Saturday, August 20!
